\*If a waste treatment management agency with authority to dispose of sewage, industrial wastes, or other waste, or a special purpose district that finances, on behalf of its members, waste disposal projects.

\*\*For nonpoint source pollution or estuary management projects.

\*\*\*If created under Texas Constitution Article III, Section 52 or Article XVI, Section 59.

\*\*\*\*Applicant must have FEMA-approved Hazard Mitigation Plan; area where mitigation activity is being completed in must participate in NFIP, so most eligible entities are cities and counties.

\*\*\*\*\*Must be non-federal government or non-profit or have a non-federal government or non-profit sponsor; local government where the dam is located must have FEMA-approved Hazard Mitigation Plan that includes all dam risks.
